

to be irrigated, giving the number of acres to be irrigated in each 40-acre legal subdivision.

(g) The depth to the water table, if known.

(h) The location of each well with reference to government survey corners or monuments or corners of recorded plats.

(i) The proposed depth, diameter and type of each well, and the kind and amount of the casing.

(j) The estimated capacity of each well and each well pump in gallons per minute, and the horsepower of each well pump motor.

(k) If the ground water is artesian or other ground water not requiring pumping, the rate of flow in gallons in such manner as the Water Resources Commission may prescribe.

(L) If the ground water supply is supplemental to an existing water supply, identification of any application for a permit, permit, certificate or adjudicated right to appropriate water made or held by the applicant.

(m) Any other information as the department considers necessary to evaluate the application.

(3) Each application for a permit shall be accompanied by any maps and drawings the department considers necessary.

(4) The map or drawing required to accompany the application shall be of sufficient quality and scale to establish the location of the proposed point of diversion and the proposed place of use identified by tax lot, township, range, section and nearest quarter-quarter section along with a notation of the acreage of the proposed place of use, if appropriate. In addition, the department shall accept locational coordinate information, including latitude and longitude as established by a global positioning system. If the application is for a water right for a municipal use, the map need not identify the proposed place of use by tax lot.

(5) Each application for a permit to appropriate water shall be accompanied by the examination fee set forth in ORS 536.050 (1).

(6) If the proposed use of the water is for a mining operation as defined in ORS 517.952, the applicant shall provide the information required under this section as part of the consolidated application under ORS 517.952 to 517.989.

(7) Notwithstanding any provision of ORS chapter 183, an application for a permit to appropriate ground water shall be processed in the manner set forth in ORS 537.505 to 537.795. Nothing in ORS chapter 183 shall be construed to allow additional persons to participate in the process. To the extent that

any provision in ORS chapter 183 conflicts with a provision set forth in ORS 537.505 to 537.795, the provisions in ORS 537.505 to 537.795 shall control. [1955 c.708 §9; 1959 c.437 §3; 1985 c.673 §54; 1987 c.542 §7; 1991 c.735 §34; 1993 c.557 §4; 1995 c.416 §22; 1997 c.446 §6; 1997 c.587 §8; 2013 c.371 §33]

537.620 Determination of completeness of application; initial review; preliminary determination; notice; public comments.

(1) The Water Resources Department shall accept all applications for permits submitted under ORS 537.615 in proper form.

(2) Within 15 days after receiving the application, the department shall determine whether the application contains the information listed under ORS 537.615 (2) and is complete and not defective, including the payment of all fees required under ORS 537.615 (5). If the department determines that the application is incomplete or defective or that not all fees have been paid, the department shall return the fees paid and the application to the applicant to remedy the defect. If an application is complete and not defective, the department shall indorse on the application the date upon which the application was received at the department, which shall be the priority date for any water right issued in response to the application.

(3) Upon determining that an application is complete and not defective, the department shall determine whether the proposed use is prohibited by statute. If the proposed use is prohibited by statute, the department shall reject the application and return all fees to the applicant with an explanation of the statutory prohibition.

(4) If the proposed use is not prohibited by statute, the department shall undertake an initial review of the application and make a preliminary determination of:

(a) Whether the proposed use is restricted or limited by statute or rule or because the proposed use is located within a designated critical ground water area;

(b) The extent to which water is available from the proposed source during the times and in the amounts requested; and

(c) Any other issue the department identifies as a result of the initial review that may preclude approval of or restrict the proposed use.

(5) Upon completion of the initial review and no later than 30 days after determining an application to be complete and not defective as described in subsection (2) of this section, the department shall notify the applicant of its preliminary determinations and allow the applicant 14 days from the date of mailing within which to notify the depart-
