(4) Each registration statement shall be accompanied by maps, drawings and other data as the commission considers necessary.

(5) The commission may require that any registration statement be supplemented after any well is fully completed by a statement containing such additional information as the commission considers necessary.

(6) Any person or public agency who failed to file a registration statement within the period set forth in subsection (1) of this section may file within one year after May 29, 1961, a petition with the commission requesting that the person be given an opportunity to rebut the presumption that the person has abandoned the claim. Upon the filing of such a petition the commission may schedule a hearing to take testimony and evidence on the date of well construction and the use of ground water or the commission may accept sworn statements in writing in support of such petition. No petition shall be denied without a public hearing. If it appears after hearing or from such sworn statements, that the person or public agency has a use of ground water that would be subject to determination under ORS 537.670 to 537.695 as defined in ORS 537.585 and 537.595, the commission shall issue an order authorizing the petitioner to file a registration statement as described under subsection (3) of this section. Upon recording the statement, the commission shall issue to the registrant a certificate as evidence that the registration is completed.

(2) The issuance of the certificate of registration serves as prima facie evidence that the registrant is entitled to a right to appropriate ground water and apply it to beneficial use to the extent and in the manner disclosed in the recorded registration statement and in the certificate of registration.

(3) A certificate of registration issued under this section may not be construed as a final determination of any matter stated in the certificate of registration. The right of the registrant to appropriate ground water under a certificate of registration is subject to determination under ORS 537.670 to 537.695, and is not final or conclusive until so determined and a ground water right certificate issued. A right to appropriate ground water under a certificate of registration has a tentative priority from the date when the construction of the well was begun.

(4) The commission shall adopt by rule the process and standards by which the commission will recognize changes in the place of use, type of use or point of appropriation for claims to appropriate ground water registered under this section. The commission shall adopt fees not to exceed \$1,450 for actions taken to modify a certificate of registration.
