536.595 Department discussions with Corps of Engineers over operation of Detroit Lake. In discussions held with the United States Army Corps of Engineers over seasonal operations of impoundments within the Willamette Basin reservoir system, including Detroit Lake, the Water Resources Department shall:

(1) Specify that the State of Oregon has determined that Detroit Lake is an important recreational resource to the citizens of Oregon.

(2) Encourage the United States Army Corps of Engineers to place Detroit Lake as

the highest priority recreational use lake in the Willamette Basin reservoir system.

(3) If the United States Army Corps of Engineers indicates that recreational use of Detroit Lake will not receive the highest priority, notify communities that may be detrimentally affected by such a decision and hold public meetings within the affected communities. [2001 c.837 §1]

Note: 536.595 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 536 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

EMERGENCY WATER SHORTAGE POWERS

536.700 "Drainage basin" defined. As used in ORS 536.700 to 536.780, "drainage basin" means one of the 18 Oregon drainage basins identified by the Water Resources Department as shown on maps published by that department dated January 1976. [1977 c.541 §3]

536.710 Policy. (1) The Legislative Assembly finds that an emergency may exist when a severe, continuing drought results in a lack of water resources, thereby threatening the availability of essential services and jeopardizing the peace, health, safety and welfare of the people of Oregon.

(2) The Legislative Assembly finds it necessary in the event of an emergency described in subsection (1) of this section, to promote water conservation and to provide an orderly procedure to assure equitable curtailment, adjustment, allocation or regulation in the domestic, municipal and industrial use of water resources where more than one user is dependent upon a single source of supply. [1977 c.541 §1]

536.720 Declaration of state authority; Governor's power to order water conservation or curtailment plan. (1) Because municipal and other political subdivision boundaries do not conform with the geographic boundaries of the 18 major drainage basins, or associated subbasins in the state, and because problems caused by a severe continuing drought may exceed local ability to control, the Legislative Assembly declares that water resource conservation in time of severe, continuing drought requires the exercise of state authority.

(2)(a) After a declaration that a severe, continuing drought exists, or is likely to exist, the Governor may order individual state agencies and political subdivisions within any drainage basin or subbasin to implement, within a time certain following the declaration, a water conservation or curtailment plan or both, approved under ORS 536.780.
